COMPANY PROJECTS

Strike Resources Limited (ASX:SRK) is an ASX listed resource company which owns the high grade Apurimac Iron Ore Project in Peru where it has exported “Apurimac Premium Lump” DSO product of ~65% Fe. Strike also has a 27.7% (31.01 Million shares) interest in Lithium Energy Limited (ASX:LEL), which was spun-out of Strike under a \$9 Million IPO in May 2021. Lithium Energy is developing battery minerals related assets - the Solaroz Lithium Brine Project in Argentina and the Burke and Corella Graphite Projects in Queensland.

Apurimac Iron Ore Project (Peru)

Strike’s Apurimac Iron Ore Project in Peru is recognised as one of the highest grade, large scale magnetite projects in the world with the potential to support the establishment of a significant iron ore operation.

Strike has completed two shipments (to Chinese and South American Steel Mills) of high-grade (+65% Fe) Apurimac Premium Lump DSO in calendar 2021.¹

The specifications of the first (35,000 tonne) shipment of Apurimac Premium Lump DSO are in Table 1.

65.99	2.76	0.65	0.059	0.09	1.06

The specifications of the second (15,000 tonne) shipment of Apurimac Premium Lump DSO are in Table 2.

65.28	1.64	0.88	0.052	0.09	0.62

Table 2: Apurimac Premium Lump DSO – Second Shipment Analysis

Strike notes that:

- The Offtake Agreement² (pursuant to which the first shipment of 35,000 tonnes to China was undertaken) is on a CFR basis (where Strike bears the cost of shipment). As such, subsequent shipments to China will be subject to negotiation of an acceptable price with the offtake counterparty and securing a ship charter on terms acceptable to Strike.
- The second shipment (of 15,000 tonnes to a South American steel mill) was made on an FOB basis (where the buyer is responsible for the shipment cost) with a competitive market price calculated by reference to the high grade nature of the Apurimac Lump DSO ore. This shipment was successfully used by the buyer as an industrial trial for their steel manufacturing facility.

Strike is investigating further shipments from Peru, subject to satisfaction with a number of matters including negotiation of an acceptable price (referenced to the benchmark iron ore price) and Strike securing sufficient working capital to fund production to this end.

Rail and Port Infrastructure Initiatives and Development

The Peruvian Government, through the Ministry of Transport and Communications (**MTC**) has formally approved an investment study that was completed to examine the viability of the proposed San Juan de Marcona-Andahuaylas railway.³ This railway is proposed to commence adjacent to the Company's Apurimac Project and terminate at the Port of San Juan de Marcona.⁴

Figure 1: Location of Apurimac Iron Ore Project and Proposed Andahuaylas Railway Route to Port

With the MTC having completed its approval process, the MTC has confirmed that it will now move to a tendering and subsequent construction phase with construction scheduled to commence between 2026 and 2027 and with a targeted completion date by 2032. The Marcona-Andahuaylas Railway Project is proposed to operate under a 40-year concession model, managed by a single operator responsible for its operation and maintenance.⁵

This strategic initiative by the Peruvian Government is part of Peru's broader plan to expand its railway network by 1,934 kilometres across six new rail networks, positioning the Marcona-Andahuaylas railway as a national priority and one of the two most advanced rail projects in development in Peru.⁶

³ Refer to Ministry of Transport and Communications Press Release dated 23 July 2024: The viability of the Lima-Ica and San Juan de Marcona - Andahuaylas railways was approved

COMPANY PROJECTS

Figure 2 – Map of Peruvian Government's planned railway network expansion (Source: MTC)

The Marcona-Andahuaylas Railway Project is projected to cost USD\$8.16 billion and is proposed to be executed under a Government to Government (G2G) scheme. Following the technical sign-off by the Peruvian Government, the Peruvian Minister for Transport and Communications (MTC) has made a number of positive comments highlighting the importance of the Marcona-Andahuaylas Railway Project including confirming interest from the Chinese Government after a recent state visit to China led by President Dina Boluarte.⁷ Interest in the Marcona-Andahuaylas Railway Project has also been received from governments of Canada, France and Germany.⁸

Following on from the state visit of the President of Peru to China, the President of Peru has also announced the creation of a Joint Commission between China and Peru aimed at facilitating a portfolio of Government to Government (G2G) projects in infrastructure and services. It was also announced that a new dedicated Ministry of Infrastructure would be created to centralize investment promotion under a single agency.⁹

The Peruvian Government has also awarded a contract worth approximately US\$405 million to the Chinese company, Terminal Portuario Jinzhao Perú S.A., for the construction and operation of a new Port Terminal at San Juan de Marcona with a capacity of around 40 Million tonnes per annum (Mtpa). This port development, in conjunction with the Marcona-Andahuaylas railway, forms a proposed integrated transport export corridor starting from Andahuaylas Airport near Strike's Apurimac Iron Ore Project and ending at the Marcona Port Terminal. The port's development assumes that Strike's Apurimac Project could contribute up to 50% (20Mtpa) of the port's total freight.

Table 3 – PROINVERSIÓN's Projected Port Capacity at the New San Juan de Marcona Port Terminal¹⁰

Upon completion by the targeted 2032 date, the railway would connect Strike's Apurimac Iron Ore Project (Apurimac Project) directly to the new Marcona Port Terminal and potentially provide an externally funded, high-capacity infrastructure solution for the Apurimac Project.

The advancement of port and rail initiatives by the Peruvian Government increase the Company's confidence in the commitment of the Peruvian Government to develop large scale infrastructure projects, such as the proposed Marcona-Andahuaylas Railway Project. The recent study completion in particular is considered by the Company to be a significant step forward in potentially catalysing the development of Strike's Apurimac Project.

Feasibility Studies

Strike completed a Pre-Feasibility Study on the Apurimac Project in 2008¹¹ (subsequently updated in 2010¹²), which indicated the clear potential for development of a world class iron ore project, with competitive capital costs and very low operating costs:

- The 2008 Pre-Feasibility Study undertaken by Snowden Mining Industry Consultants and SKM utilised a proposed slurry pipeline configuration as the preferred transport solution (under the study). For further details, refer to Strike's ASX Announcement dated 23 July 2008: Prefeasibility Results Confirm World Class Prospects in Peru;
- Further infrastructure studies were undertaken by Ausenco Sandwell and SRK Consulting in 2010 with the purpose to further compare the economics of a slurry pipeline versus railway infrastructure solutions at various production levels. For further details, refer to Strike's ASX Announcement dated 23 November 2010: Apurimac Project Update and Strike's December 2010 Quarterly Report.

COMPANY PROJECTS

In 2021, Ausenco completed a (high level) review of the 2008 and 2010 studies and gap and trade-off analyses to identify opportunities to reduce project capex and increase project execution security, taking into account current cost estimates, technology advancements (since 2010) and current/expected market conditions.

JORC Mineral Resource

A **JORC (2012) Indicated and Inferred Mineral Resource** has been defined at the main Opaban 1 and Opaban 3 concessions of **269Mt of iron ore at 57.3% Fe** (142 Mt Indicated Resource at 57.8% Fe and 127 Mt Inferred Resource at 56.7% Fe)¹³.

The Opaban 3 Mineral Resource has been diminished by production and sales of 50,095 tonnes of lump iron ore grading 65.78% Fe, 2.42% SiO₂, 0.72% Al₂O₃, 0.057% P and 0.09% S.

In addition to the current JORC resource, there is significant exploration potential given the deposits are open at depth and along strike with extensive undrilled gravity and magnetic anomalies.

Securities Incentive Plan

The Company has adopted a Securities Incentive Plan (**Plan** or **SIP**) pursuant to which the Board may offer to eligible persons the opportunity to subscribe for securities in the Company on such terms and conditions as the Board may decide and otherwise pursuant to the rules of the Plan.¹⁰ The purpose of the Plan is to:

- (a) assist in the reward, retention, and motivation of 'Eligible Participants' (which includes directors¹¹, employees and contractors);
- (b) link the reward of Eligible Participants to shareholder value creation; and
- (c) align the interests of Eligible Participants with shareholders of the Company by providing an opportunity to Eligible Participants to receive an equity interest in the Company in the form of securities (which includes a share, a right to a share, an option over an issued or unissued security and a convertible security).

REVIEW OF OPERATIONS

Paulsens East Iron Ore Project (Pilbara, Western Australia)

The Paulsens East Iron Ore Project (**Paulsens East**) is located in the Pilbara region of Western Australia, ~235km by road east of Onslow (and the Port of Ashburton) and ~600km by road south of Port Hedland.

In September 2022, Strike completed a maiden shipment of 66,618 tonnes of iron ore from Paulsens East, which involved the mining of surface detrital material to produce Paulsens East Lump direct shipping iron ore (**DSO**) (grading 62% Fe), which was exported to China from the Utah Point Multi-User Bulk Handling Facility (**Utah Point**) at Port Hedland. Whilst the successful shipment of its first shipment of iron ore from Paulsens East was a significant milestone for the Company, Strike determined to pause on further shipments from Utah Point given market conditions, together with rising input costs, adversely impacting operating margins.¹²

Strike was also advancing the development of an export solution through the Port of Ashburton, Onslow (located ~235km from Paulsens East, versus ~650km to Port Hedland), including via the Port of Ashburton Consortium (**PAC**) with iron ore developer CZR Resources Ltd (ASX:CZR) and transshipment services provider CSL Australia Pty Ltd, to develop a ~5 Mtpa capacity multi-user bulk loading export facility.¹³

On 22 December 2023, the Company entered into a Share and Asset Purchase Agreement (**Agreement**) with certain parties including Miracle Iron Holdings Pty Ltd (**Miracle**) for the sale of 100% of the shares in wholly-owned subsidiary, Strike Iron Ore Holdings Pty Ltd (**SIOH**) in consideration of a cash purchase price of A\$20.5 million.¹⁴ SIOH is the parent of Paulsens East Iron Ore Pty Ltd (**PEIOPL**), the owner and operator of Paulsens East.

Given prevailing market conditions, Strike's significant (US\$7.2 million) liability owed to Good Importing International Pty Ltd (**GII**)¹⁵ and the significant financial requirements of operating iron ore projects, the Board believed that it was in the best interests of Strike shareholders to dispose of its interest in Paulsens East on the terms negotiated under the Agreement.¹⁶

10 The SIP was approved by shareholders at the Company's AGM held on 4 December 2020; a summary of the SIP is in Annexure A to Strike's Notice of AGM and Explanatory Statement dated 20 October 2020 and released on ASX on 4 November 2020

11 The issue of securities to Directors and Key Management Personnel will require prior shareholder approval, as required under the ASX Listing Rules and/or Corporations Act, as applicable.

16 Refer also to Strike's Notice of General Meeting, Explanatory Statement and Proxy Form dated and released on ASX 5 February 2024

DIRECTORS' REPORT

Shareholders approved the disposal of Paulsens East at a General Meeting on 6 March 2024¹⁷ and the disposal was completed on 8 March 2024.

Strike received a A\$2 million deposit on execution of the Agreement in December 2023 and received A\$18 million at completion on 8 March 2024¹⁸. Strike also fully discharged a \$11.26 million (US\$7.2 million loan principal) loan (inclusive of accrued interest) owed to GII at completion. There is a \$0.5 million deferred consideration component to the sale - Strike received \$0.10 million in July 2024 and \$0.40 million is pending receipt.

ASX Listing Rule Requirements

The disposal of Paulsens East (under the Agreement) was regarded by ASX as a disposal of the Company 'main undertaking' under Listing Rule 11.2.

ASX had previously advised that^{14,16}:

- (a) in accordance with paragraph 4.7 of Guidance Note 12 (Significant Changes to Activities), Strike will be afforded a period of 6 months from the date of the Agreement (being 22 December 2023) to demonstrate to the ASX that it is compliant with Listing Rule 12.1 (which obliges a listed entity to satisfy ASX on an ongoing basis that the level of its operations is sufficient, and its financial condition adequate, to warrant its continued quotation of its securities); and
- (b) it will suspend trading in Strike's securities if Strike had not demonstrated compliance with Listing Rule 12.1 to ASX's satisfaction at the end of the 6-month period (being by 21 June 2024), with such suspension continuing until Strike undertakes an acquisition and re-complies with Chapters 1 and 2 of the Listing Rules, which will involve, amongst other matters, the issue of a prospectus and making a fresh application for admission to ASX.

As announced by Strike in July 2024¹⁹, ASX has advised that:

- ASX is not aware of any reason why Strike's operations are not presently adequate to warrant the continued quotation of its securities pursuant to Listing Rule 12.1;
- This determination does not preclude Strike from being suspended in the future pursuant to Listing Rule 12.1; and
- ASX will continue to monitor Strike's compliance with Listing Rule 12.1.

Apurimac Iron Ore Project (Peru)

(Strike – 80%)

Strike's Apurimac Iron Ore Project in Peru is recognised as one of the highest-grade, large-scale magnetite projects in the world with the potential to support the establishment of a significant iron ore operation.²⁰

Strike has previously completed two shipments (to Chinese and South American Steel Mills) of high-grade (+65% Fe) Apurimac Premium Lump shipping iron ore (DSO) in 2021.²¹

Under the Agreement with Miracle (referred to above), GII has also agreed to terminate the marketing agency and offtake arrangements granted to GII in respect of Apurimac²² in consideration for Strike transferring either directly or indirectly a 20% interest in Apurimac Ferrum S.A.C. (**AF**), the owner of Apurimac, to JE United Ltd (**JEL**) (a nominee/associate of GII). The investment structure in respect of the 20% interest in AF is pending finalisation and agreement with JEL. The Company notes that JEL will be called upon to contribute its (20%) share of funding towards the ongoing ownership costs of Apurimac and the development of Apurimac including the potential resumption of DSO mining operations.

DIRECTORS' REPORT

Strike has advanced the development of Apurimac during the financial year, including:

- (a) appointing a full-time CEO for Peru operations, to advance Strike's operations in Peru, both on a short-term basis to restart production (subject to favourable production economics being attained) together with longer term aims to develop a more substantial iron ore operation at Apurimac;
- (b) undertaking a management site visit in February 2024 to meet with various stakeholders required for a recommencement of mining operations, including visits to potential crushing plants and the Port, discussions with mining services contractors, the local offices of international trading houses (who have offered joint venture, offtake and hedging facility arrangements), owners of other nearby iron ore projects close to Apurimac (who have put forward proposals to combine various aspects of mining operations such as a joint crushing facility and shared trucking operations);
- (c) engaging with local community miners in relation to undertaking mining activities within the Apurimac concessions as part of start-up activities as well as seeking to finalise trucking, crushing and Port access arrangements for the mining and export of iron ore at Apurimac;
- (d) implementing a Community Relations strategy and programme to facilitate both a potential short-term start-up of mining operations as well as advance the larger and more fundamental commercial objective of expanding the current iron ore resource at Apurimac (as part of its long standing strategic objectives since the asset was acquired in 2006) to commence long term substantial iron ore production from Apurimac, including seeking approvals for a resource expansion drilling programme;
- (e) engaging a Geological Specialist to undertake a comprehensive review and assessment of past works on the Apurimac Project to determine optimal locations for small-scale production and a review of historical data to determine optimal locations and drill plans for an expansion of the current JORC Mineral Resource²⁰ at Apurimac;
- (f) expanding its logistics/administration support personnel (including staff based in Andahuaylas, near the Apurimac site, located ~450kms by air from Lima, the capital of Peru);
- (g) actively engaging with Peruvian Government departments/authorities to explore opportunities for involvement in the Government's port²³ and rail²⁴ initiatives and to identify ways to expedite the approval process for the Company's mining permits;
- (h) engaging with international trading houses for project financing, hedging and offtake agreement; and
- (i) engaging with traders who are interested in purchasing Apurimac iron ore on an "Ex-Mine Gate" basis.

For further details on Strike's staged development pathway for Apurimac, refer to SRK ASX Announcement dated 5 July 2024 entitled "Company Update"

Investment in Lithium Energy Limited (ASX:LEL)

Lithium Energy Limited (**LEL** or **Lithium Energy**) was spun out of Strike following the successful completion of LEL's \$9 million (at \$0.20 per share) initial public offering (**IPO**) under a Prospectus (dated 30 March 2021).²⁵

DIRECTORS' REPORT

As at 30 June 2024 and currently, Strike is the largest shareholder of LEL with 31,010,000 shares (27.7%) (30 June 2023: 31,410,000 shares; 30.49%).

The LEL share price has traded within a range of \$0.29 (on 20 September 2024) to \$0.8295 (on 3/4 July 2023) since 1 July 2023, with a bid price of \$0.37 (as at 30 June 2024) and a current closing price of \$0.31 (as at 27 September 2024).

Lithium Energy Limited is an ASX listed battery minerals company which is developing its flagship Solaroz Lithium Brine Project in Argentina and the Burke and Corella Graphite Projects in Queensland. The Solaroz Lithium Project (LEL:90%) comprises 12,000 hectares of highly prospective lithium mineral concessions (where a JORC Indicated and Inferred Mineral Resource of lithium has been delineated²⁶) located strategically within the Salar de Olaroz Basin in South America's "Lithium Triangle" in north-west Argentina. Lithium Energy shares the lithium rights in the Olaroz Salar basin with lithium carbonate producers Arcadium Lithium plc (ASX:LTM) and Lithium Argentina Corporation (TSX:LAAC). Prior to the announced sale of the Solaroz Project (settlement pending)²⁷, Lithium Energy had completed a Scoping Study on Solaroz and had been investigating the development of a 20/40ktpa lithium carbonate equivalent (LCE) production facility using conventional evaporation ponds; Lithium Energy has also been evaluating direct-lithium extraction (DLE) technologies. The Burke and Corella Graphite Projects (LEL:100%) in Queensland, Australia, contains high grade JORC Indicated and Inferred Mineral Resources of graphite.²⁸

On 3 April 2024, Lithium Energy and NOVONIX Limited (ASX:NVX) announced the merger of their adjoining Burke and Mt Dromedary Queensland Natural Graphite Deposits into Lithium Energy subsidiary, Axon Graphite Limited (Proposed ASX Code: AXG) (**Axon Graphite** or **AXG**), which will undertake a \$15 Million to \$25 Million IPO and seek admission to ASX as a dedicated vertically-integrated mine to battery anode material product manufacturing company.²⁹

On 30 April 2024, Lithium Energy announced the sale of its interest in the Solaroz Project to a subsidiary of CNGR Advanced Materials Co Ltd for US\$63 Million (~A\$97 Million³⁰) cash; completion is subject to the satisfaction (or waiver, as applicable) of a number of conditions precedent, including receipt of Lithium Energy shareholder approval (which was attained on 8 March 2024³¹), receipt of regulatory approvals (in China³² and Argentina, as required) and receipt of environmental and concession related approvals relating to Solaroz.³³

Pending completion of the sale of Solaroz, Lithium Energy will focus on advancing the Axon Graphite IPO and securing the relevant approvals required to satisfy applicable conditions relating to the sale of Solaroz.³⁴

DIRECTORS' REPORT

Other Projects

Strike may also pursue other investment opportunities in the resource sector in Australia and overseas if it is in the interests of the Company and shareholders, subject to the results of its Apurimac operations in Peru and the relative prospects of any new proposed project.

ASX has noted that it may require Strike to re-comply with Chapters 1 and 2 of the Listing Rules in the event Strike proposes to undertake an acquisition or transaction that warrants the application of Chapter 11 of the Listing Rules.

Quarterly Reports

Further information on Strike's activities and operations during the financial year are also contained in Strike's Quarterly Activities and Cash Flow Reports lodged on ASX dated:

- 31 July 2024: Quarterly Report - 30 June 2024
- 30 April 2024: Quarterly Report - 31 March 2024
- 31 January 2024: Quarterly Report - 31 December 2023
- 31 October 2023: Quarterly Report - 30 September 2023

MATERIAL BUSINESS RISKS

Strike's exploration and development operations will be subject to the normal risks of mineral exploration and development, and any revenues will be subject to factors beyond Strike's control. The material business risks that may affect Strike are summarised below:

Exploration Risk: Strike's resource projects are at various stages of exploration, evaluation and development. There is no assurance that future exploration will result in the discovery of an economic resource or reserve or that it can be economically exploited. Future exploration activities may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns or adverse weather conditions, unanticipated operational and technical difficulties, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs/recovery rates, industrial and environmental accidents, industrial disputes, unexpected shortages and increases in the costs of consumables, spare parts, plant, equipment and personnel, local communities/indigenous and existing land/lease holder stakeholder engagements, changing government regulations and many other factors beyond the control of Strike. Exploration and evaluation costs are based on certain assumptions in relation to the nature, method and timing of these activities, which are subject to significant uncertainties and, accordingly, the actual costs may materially differ. Cost estimates and the underlying assumptions may not be realised in practice, which may materially and adversely affect Strike's financial performance and or position.

Resource Estimation Risk: Resource estimates are expressions of judgement based on knowledge, experience and industry practice. These estimates were appropriate when made but may change significantly when new information becomes available. Resource estimates which depend on interpretations may require adjustment. Adjustments to resource estimates could affect Strike's future plans and ultimately its financial performance. Mineral and commodity price fluctuations, as well as increased production costs or reduced throughput and/or recovery rates, may render resources containing relatively lower grades uneconomic and may materially affect resource estimations.

Title Risk: Mining tenements are granted subject to a number of conditions, compliance with which is necessary to ensure continued title to those tenements. These conditions may include payment of annual rents, meeting prescribed expenditure and/or work commitments, and annual reporting requirements. Failure to meet tenement conditions may cause loss of title to tenure and/or the imposition of fines. Mining tenements may only be granted for a specified term and may be subject to periodic renewal or extension. In some cases, mining tenements may only be renewed or extended a limited number of times for a limited period of time. After completing their permitted number of renewals and extensions of term, an exploration tenement may expire at the end of their respective term, unless an application to convert those tenements to a mining licence (or another form of mining tenure) is lodged and successfully granted.

DIRECTORS' REPORT

The renewal or extension of the term of a granted tenement or grant of a tenement application is also subject to the discretion of the relevant government official/authority or their authorised delegates (as applicable) and may be subject to renewal/grant conditions. Renewal/grant conditions may include increased expenditure and/or work commitments or compulsory relinquishment of tenement areas. Strike cannot guarantee that renewals or extensions of its mining tenements (where applicable) will be granted on a timely basis, or at all. The inability to obtain the grant of tenements, or renewals or extensions, and the imposition of new conditions, or the inability or failure to meet any conditions may adversely affect the operations, financial position and/or performance of Strike.

Feasibility and Development Risks: There is risk associated with the successful commercial exploitation of resource discoveries. Such exploitation would involve securing necessary approvals from relevant authorities that may require conditions to be satisfied and/or the exercise of discretions by such authorities. It may or may not be possible for such conditions to be satisfied or in a timely manner. Advancing exploitation may involve the participation of other parties/stakeholders whose interests and objectives may differ from Strike's. There is a complex, multidisciplinary process involved to evaluate and assess development pathways and undertake feasibility-related studies to support a development proposal. Evaluations/assessments and studies and associated technical works may not achieve the results expected. Even if supported by a positive feasibility study, a project may not be successfully developed for a range of technical, commercial and or financial reasons.

Commodity Pricing Risk: The commercial prospects of Strike (in relation to the development of its current iron ore projects) is dependent principally upon the demand for iron ore and steel products, in particular in China, which is the predominant export market for junior iron ore producers.

Key Personnel: In formulating its exploration and evaluation programmes, feasibility-related studies and development strategies, Strike relies on the experience and expertise of its directors, senior executives and other senior management. There is a risk that key personnel may leave their employment, which may adversely affect the business, at least in the short term. Recruiting and retaining qualified, skilled and experienced key personnel in the minerals/commodities sectors and geography in which Strike operates may also be challenging in a strong and competitive resources sector.

Future Funding: Strike's ongoing exploration, evaluation and development activities will require substantial further funding in the future.

Any additional equity capital may be dilutive to shareholders and may be undertaken at lower issue prices than the current market price. Debt financing, if available, may involve restrictive covenants which limit Strike's operations and business strategy. There is no assurance that appropriate funding, if and when needed, will be available on terms satisfactory to Strike or at all. The inability to obtain funding will adversely affect Strike and may result in some or all of its projects not proceeding or their scale and/or scope being altered or defaults in licences or permits or agreements occurring, which, if not remedied, could result in forfeiture of its tenements.

Foreign Jurisdiction: Strike holds its interest in the Apurimac Project in Peru through its 100% shareholdings in Peruvian registered companies. The overseas companies are subject to risks normally associated with the conduct of business in foreign countries. Risks pertaining to Peru may include, among other things, political risk, economic environments, disruptions to logistics, access to infrastructure and services (water, power and gas), labour disputes, corruption, civil disturbances and crime, changes in law or policies, opposition to mining from environmental or other non-governmental organisations or changes in political attitudes towards mining activities.

Foreign Exchange Risk: The expenditure of Strike is and will be in Australian, United States and Peruvian currencies, exposing the Company to fluctuations and volatility of the rates of exchange between the Australian dollar, United States dollar and Peruvian Soles as determined in international markets. Strike does not currently undertake any hedging of foreign currency items, however as operations develop and expand, more sophisticated foreign exchange risk management strategies may be adopted.

Access Risk: There may be areas of Strike's projects over which indigenous rights exist or are claimed by indigenous owners. Similarly, Strike's tenements may encroach on existing land or lease holders. As such, Strike's ability to gain access to the tenements or to progress from the exploration phase to the development and mining phases of operations, may require reaching agreement with these stakeholders to facilitate access and development, which is not assured, on terms satisfactory to Strike, or at all. Negotiations with stakeholders may also result in a delay with the development of Strike's projects.

DIRECTORS' REPORT

Regulatory Risk: Strike's operations are subject to various Federal, State/Provincial and local laws and regulations, including those relating to exploration, development and mining permit and licence requirements, industrial relations, environment, land use, royalties, water, native title/indigenous and cultural heritage, mine safety and occupational work, health and safety. Approvals, licences and permits required to comply with such rules may be subject to the discretion of the applicable government officials/authorities. No assurance can be given that Strike will be successful in maintaining such authorisations in full force and effect without modification or revocation. To the extent such approvals are required and not retained or obtained in a timely manner or at all, Strike may be curtailed or prohibited from continuing or proceeding with exploration and production. Strike's business and results of operations could be adversely affected if applications lodged for relevant licences are not granted.

Environmental Risk: The operations and activities of Strike are subject to environmental laws and regulations. Strike is unable to predict the effect of additional environmental laws and regulations which may be adopted in the future, including whether any such laws or regulations would materially increase Strike's cost of doing business or affect its operations in any area. However, there can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not

oblige Strike to incur significant expenses and undertake significant investments which could have a material adverse effect on Strike's business, financial condition and performance.

Climate Change Risk: The operations and activities of Strike may be subject to local or international compliance regulations related to climate change mitigation efforts, specific taxation or penalties for carbon emissions or environmental damage, and other possible restraints on industry that may further impact Strike and its profitability. Climate change may also cause certain physical and environmental risks that cannot be predicted by Strike, including events such as increased severity of weather patterns, incidence of extreme weather events and longer-term physical risks such as shifting climate pattern.

Pandemic and other Public Health Risks: Future health pandemics (such as COVID-19) and other possible outbreaks of viruses/disease may have a significant adverse effect on Strike's business. The spread of such diseases amongst management, employees, contractors, suppliers and logistic networks, as well as any health-related government-imposed quarantine and isolation requirements, may reduce the ability to operate and have detrimental financial implications. More broadly, Strike may also be affected by the macroeconomic effects and likely ensuing financial volatility in the economies where the Company operates.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There have been no significant changes in the state of affairs of Strike, save as otherwise disclosed in this Directors' Report or the financial statements and notes thereto, including:

- (a) The sale of Paulsens East, which was completed on 8 March 2024.

FUTURE DEVELOPMENTS

Strike intends to (subject to, amongst other matters, market conditions, Strike's financial position and commitments and the relative prospects of Strike's resource projects) advance the evaluation and development of its Apurimac Iron Ore Project in Peru. The likely outcomes of these activities depend on a range of technical and economic factors (including underlying commodity prices) and also industry, geographic and other strategy specific issues. In the opinion of the Directors, it is not possible or appropriate to make a prediction on the results of these activities, the future course of markets or the forecast of the likely results of Strike's activities.

ENVIRONMENTAL REGULATION

Strike holds mineral tenements/concession licences issued by the relevant mining and environmental protection authorities of the various countries in which it operates (from time to time). In the course of its mineral exploration, evaluation and development activities, Strike adheres to licence conditions and environmental regulations imposed upon it by various authorities (as applicable). Strike has complied with all licence conditions and environmental requirements (as applicable) during the financial year and up to the date of this report. There have been no known material breaches of Strike's licence conditions and environmental regulations during the financial year and up to the date of this report.

The Remuneration and Nomination Committee was established in August 2010 and currently comprises William Johnson (as Chairman) and Farooq Khan.

The Remuneration and Nomination Committee has a formal charter to prescribe its purpose, key responsibilities, composition, membership requirements, powers and other administrative matters. The Committee has a:

- Remuneration function - with key responsibilities to make recommendations to the Board on policy governing the remuneration benefits of the Executive Chairman and Executive Directors, including equity-based remuneration and assist the Executive Chairman to determine the remuneration benefits of senior management and advise on those determinations; and a
- Nomination function - with key responsibilities to make recommendations to the Board as to various Board matters including the necessary and desirable qualifications, experience and competencies of Directors and the extent to which these are reflected in the Board, the appointment of the Chairman and Managing Director, the development and review of Board succession plans and addressing Board diversity.

A copy of the Remuneration and Nomination Committee Charter may be downloaded from the Company's website: www.strikeresources.com.au/corporate/corporate-governance/.

REMUNERATION REPORT

This Remuneration Report details the nature and amount of remuneration for each Director and Company Executive (being a company secretary or senior manager) (**Key Management Personnel**) of the Company.

The information provided under headings (1) to (8) below has been audited for compliance with section 300A of the *Corporations Act 2001 (Cth)* as required under section 308(3C).

(1) Key Management Personnel disclosed in this report

Name	Current Position	Tenure
Farooq Khan	Chairman	Chairman since 18 December 2015; Director since 1 October 2015
William Johnson	Executive Director	Executive Director since 8 March 2024; Managing Director between 25 March 2013 and 8 March 2024; Director since 14 July 2006

Matthew Hammond	Non-Executive Director	Resigned as Non-Executive Director on 27 September 2024; appointed Director on 25 September 2009

(2) Remuneration Policy

The Board (with guidance from the Remuneration and Nomination Committee) determines the remuneration structure of all Key Management Personnel having regard to Strike's strategic objectives, scale and scope of operations and other relevant factors, including experience and qualifications, length of service, market practice (including available data concerning remuneration paid by other listed companies in particular companies of comparable size and nature within the resources sector in which Strike operates), the duties and accountability of Key Management Personnel and the objective of maintaining a balanced Board which has appropriate expertise and experience, at a reasonable cost to the Company.

The Remuneration and Nomination Committee: A purpose of the Committee is to assist the Executive Chairman and the Board to adopt and implement a remuneration system that is required to attract, retain and motivate the personnel who will enable the Company to achieve long-term success. In carrying out this 'remuneration function', the Committee's key responsibilities are to:

- make recommendations to the Board on the specific benefits to be provided to the Managing Director/Executive Directors within the policy
- conduct an annual review of Non-Executive Directors' fees and determining whether the limit on the Non-Executive Directors' fee pool remains appropriate, and
- assist the Executive Chairman to determine the remuneration (including equity-based remuneration) of 'Senior Management' (being executive direct reports to the Executive Chairman and other senior employees) and advise on those determinations.

A copy of the Remuneration and Nomination Committee Charter may be downloaded from the Company's website: www.strikeresources.com.au/corporate/corporate-governance/.

Corporate Governance Principles: The Company's Corporate Governance Statement (**CGS**) also addresses matters pertaining to the Board, Senior Management and Remuneration. The latest version of the CGS may be downloaded from the Company's website: www.strikeresources.com.au/corporate/corporate-governance/.

Company Constitution: The Company's Constitution³⁸ also contain provisions in relation to the remuneration of the Managing Director, Executive Directors and Non-Executive Directors.

38 Refer SRK ASX Announcement released on 1 February 2006: Constitution

REMUNERATION REPORT

Fixed Cash Short-term Employment Benefits: The Key Management Personnel of the Company are paid a fixed amount per annum plus applicable employer superannuation contributions. The Non-Executive Directors of the Company can be paid a maximum aggregate base remuneration of \$500,000³⁹ per annum inclusive of employer superannuation contributions where applicable, in such quantum and to be divided as the Board determines appropriate.

The Board has determined the following fixed cash remuneration for current Key Management Personnel as follows (as at 30 June 2024):

- (a) Mr Farooq Khan (Executive Chairman) - a base salary of \$175,000 per annum plus employer superannuation contributions;
- (b) Mr William Johnson (Executive-Director) - a base salary of \$100,000 per annum plus employer superannuation contributions;
- (c) Mr Victor Ho (Executive Director and Company Secretary) - a base salary of \$175,000 per annum plus employer superannuation contributions; and
- (d) Mr Matthew Hammond (Non-Executive Director) - a base fee of \$45,000 per annum.

Special Exertions and Reimbursements: Pursuant to the Company's Constitution, each Director is also entitled to receive:

- Payment for reimbursement of all travelling, hotel and other expenses reasonably incurred by a Director for the purpose of attending meetings of the Board or otherwise in and about the business of the Company; and
- In respect of Non-Executive Directors, payment for the performance of extra services or the making of special exertions for the benefit of the Company (at the request of and with the concurrence of the Board).

Short-Term Benefits: Relevant Key Management Personnel have an opportunity to earn annual short-term incentive (**STI**) cash amounts if predefined key performance indicators (**KPI's**) are achieved. The STI/KPI's are reviewed annually (where applicable). No STI benefits have been set for or paid to Key Management Personnel during the financial year. During the financial year, the Company paid STI benefits earned and resolved to be paid in the 2022 financial year.

Long-Term Benefits: The Company does not have any long-term incentive (**LTI**) cash bonus schemes (or equivalent) in place for Key Management Personnel. The Company reserves the right to implement LTI remuneration measures for Key Management Personnel if appropriate in the future.

Equity-Based Benefits: There were no equity-based benefits granted to Key Management Personnel during the financial year. There were no shares issued as a result of the exercise of options issued to Key Management Personnel during the financial year. The Company may propose the issue of securities to Key Management Personnel in the future (as an equity-based incentive benefit), which will be put to shareholders for approval at that time (as required under the ASX Listing Rules and/or *Corporations Act 2001 (Cth)*, as applicable).

³⁹ As approved by shareholders at the Annual General Meeting held on 25 November 2009; refer Strike's Notice of Annual General Meeting released on ASX on 27 October 2009 and SRK ASX Announcement dated 25 November 2009: Results of Annual General Meeting

REMUNERATION REPORT

Securities Incentive Plan: The Company adopted a Securities Incentive Plan (the **Plan** or **SIP**), which was approved by shareholders at the Company's AGM held on 4 December 2020. The purpose of the Plan is to:

- (a) assist in the reward, retention, and motivation of 'Eligible Participants' (which includes employees, Executive and Non-Executive Directors and contractors – not limited to Key Management Personnel);
- (b) link the reward of Eligible Participants to shareholder value creation; and
- (c) align the interests of Eligible Participants with shareholders of the Company by providing an opportunity to Eligible Participants to receive an equity interest in the Company in the form of securities (which includes a share, a right to a share, an option over an issued or unissued security and a convertible security).

Under the Plan, the Board may offer to eligible persons the opportunity to subscribe for such number of securities in the Company on such terms and conditions as the Board may decide and otherwise pursuant to the rules of the Plan. The maximum number of securities issued under the Plan is limited to 5% of Strike's issued share capital. A summary of the Plan is in Annexure A to the Notice of Annual General Meeting and Explanatory Statement dated 20 October 2020 and released on ASX on 4 November 2020.

There were no SIP Options granted to Key Management Personnel during the financial year.

Post-Employment Benefits: The Company does not presently provide retirement benefits to Key Management Personnel other than compulsory superannuation contributions. The Company notes that shareholder approval is required where a Company proposes to make a "termination payment" (for example, a payment in lieu of notice, a payment for a post-employment restraint and payments made as a result of the automatic or accelerated vesting of share based payments) in excess of one year's "base salary" (defined as the average base salary over the previous 3 years) to a director or any person who holds a managerial or executive office.

Performance-Related Benefits and Financial Performance of Company: Save for any applicable STI(s), LTI(s) or equity-based benefits that may be provided to Key Management Personnel, the remuneration of Key Management Personnel is fixed, is not dependent on the satisfaction of a performance condition and is unrelated to the Company's performance.

In considering the Company's performance and its effects on shareholder wealth, Directors have had regard to the data set out below for the latest financial year and the previous four financial years.

1.2 Basis of Preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, Australian Accounting Interpretations and the *Corporations Act 2001 (Cth)*. The Company is a for-profit entity for the purpose of preparing the financial statements.

Compliance with International Financial Reporting Standards (IFRS)

The consolidated financial statements of the Consolidated Entity comply with International Financial Reporting Standards (**IFRS**) as issued by the International Accounting Standards Board (**IASB**).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the financial year ended 30 June 2024

Reporting Basis and Financial Statement Presentation

The financial report has been prepared on a going concern and accrual basis and is based on historical costs modified by the revaluation of financial assets and financial liabilities for which the fair value basis of accounting has been applied.

The principal accounting policies adopted in the preparation of these financial statements have been consistently applied to all the years presented, unless otherwise stated.

1.3 Principles of Consolidation

The consolidated financial statements incorporate the assets and liabilities of the Company as at 30 June 2024 and the results of its subsidiaries for the year then ended. The Company and its subsidiaries are referred to in this financial report as Strike or the Consolidated Entity.

All inter-company balances and transactions between entities in the Consolidated Entity, including any unrealised profits or losses, have been eliminated on consolidation.

1.4 Comparative Figures

Where required by the Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial period.

1.5 New, revised or amending Accounting Standards and Interpretations adopted

The Consolidated Entity has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the AASB that are mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not mandatory have not been early adopted. These are not expected to have a material impact on the Consolidated Entity's financial statements.

The assets and liabilities in relation to wholly-owned subsidiaries, Strike Iron Ore Holdings Pty Ltd and Paulsens East Iron Ore Pty Ltd, which were sold on 8 March 2024 pursuant to an agreement dated 22 December 2023 (refer Note 12), were not allocated to an operating segment and is within the Australian segment.

Accounting policy

The operating segments are reported in a manner consistent with the internal reporting provided to the Executive Chairman. The Executive Chairman is responsible for allocating resources and assessing performance of the operating segments and has considered the business and geographical perspectives of the operating results and determined that the Consolidated Entity operated only in Australia and Peru during the financial year.

8. FINANCIAL RISK MANAGEMENT

The Consolidated Entity's financial instruments consist of deposits with banks, receivables and payables. The Consolidated Entity's financial instruments are subject to market (which includes interest rate and foreign exchange risk), credit and liquidity risks.

The Board is responsible for the overall internal control framework (which includes risk management) but no cost-effective internal control system will preclude all errors and irregularities. The system is based, in part, on the appointment of suitably qualified management personnel. The effectiveness of the system is continually reviewed by management and at least annually by the Board.

The financial receivables and payables of the Consolidated Entity in the table below are due or payable within 30 days. The Consolidated Entity holds the following financial assets and liabilities:

		2024	2023
	Note	\$	\$
Cash and cash equivalents	7	6,714,999	2,640,955

8. FINANCIAL RISK MANAGEMENT (continued)

(a) Market risk

Market risk is the risk that the fair value and/or future cash flows from a financial instrument or asset will fluctuate as a result of changes in market factors. Market risk comprises of foreign exchange risk from fluctuations in foreign currencies and interest rate risk from fluctuations in market interest rates.

(i) Commodity price risk

The Consolidated Entity is exposed to commodity price risk whereby fluctuations in the prices of commodities (i.e. iron ore), driven by market factors, can affect its financial performance. Volatile fluctuations in commodity prices creates significant business challenges that affects credit availability, production costs and product pricing. This price volatility creates an imperative for the Consolidated Entity to manage the impact of commodity price fluctuations across its value chain to effectively manage its financial performance and profitability.

(ii) Foreign exchange risk

The Consolidated Entity operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US dollar and Peruvian Nuevo Soles. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Consolidated Entity's functional currency. The risk is measured using sensitivity analysis and cash flow forecasting. The Consolidated Entity has a policy of generally not hedging foreign exchange risk and therefore has not entered into any hedging against movements in foreign currencies against the Australian dollar, including forward exchange contracts, as at the reporting date and is currently fully exposed to foreign exchange risk. The Consolidated Entity's exposure to foreign exchange risk expressed in US dollars at the reporting date are as follows:

	2024	2023
	USD	USD
Cash and cash equivalents	55,746	858,130
Loan from third party	-	(7,991,002)
Payables	(149,142)	(134,432)
Net financial assets/(liabilities)	(93,396)	(7,267,304)

The Consolidated Entity has performed a sensitivity analysis on its exposure to exchange risk. Management's assessment is based upon an analysis of current and future market positions. The analysis (below) demonstrates the effect on the current year results and equity if the Australian dollar strengthened or declined by 10% against the foreign currency detailed above.

	Impact on post-tax profit		Impact on equity	
	2024	2023	2024	2023
	\$	\$	\$	\$
Increase 10%	(9,340)	(726,730)	(9,340)	(726,730)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

8. FINANCIAL RISK MANAGEMENT (continued)

(a) Market risk (continued)

(iii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The Consolidated Entity's exposure to market risk for changes in interest rates relate primarily to investments held in interest bearing instruments. The weighted average interest rate of the cash at bank for the year for the table below is 4.19% (2023: 0.4%).

The table (below) illustrates the sensitivity of profit and equity to a reasonably possible change in interest rates based on observation of current market conditions. The calculations are based on a change in the average market interest rate and the financial instruments that are sensitive to changes in interest rates.

	Impact on post-tax profit		Impact on equity	
	2024	2023	2024	2023
	\$	\$	\$	\$
Increase by 25bps	16,787	6,602	16,787	6,602
Decrease by 25bps	(16,787)	(6,602)	(16,787)	(6,602)

(b) Liquidity risk

Liquidity risk is the risk that the Consolidated Entity will encounter difficulty in meeting obligations associated with financial liabilities. The Consolidated Entity's non-cash assets can be realised to meet trade and other payables arising in the normal course of business. The financial liabilities disclosed in the table above have a maturity obligation of not more than 30 days.

(c) Credit risk

Credit risk refers to the risk that a counterparty under a financial instrument will default (in whole or in part) on its contractual obligations resulting in financial loss to the Consolidated Entity. Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions, including outstanding receivables and committed transactions. Concentrations of credit risk are minimised primarily by management carrying out all market transactions through recognised and creditworthy brokers and the monitoring of receivable balances. The Consolidated Entity's business activities do not necessitate the requirement for collateral as a means of mitigating the risk of financial loss from defaults.

The credit quality of the financial assets are neither past due nor impaired and can be assessed by reference to external credit ratings or to historical information about counterparty default rates. The maximum exposure to credit risk at reporting date is the carrying amount of the financial assets as summarised below:

	2024	2023
	\$	\$
Cash and cash equivalents		
AA-	6,658,290	2,601,000
No external credit rating available	56,709	39,955
	6,714,999	2,640,955
Receivables (due within 30 days)		
No external credit rating available	585,252	140,922

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

9. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

Fair value hierarchy

AASB 13 (Fair Value Measurement) requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- (i) Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- (ii) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
- (iii) Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Financial assets at fair value through profit or loss:

	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Listed securities at fair value				
2024	3,000	-	-	3,000
2023	1,980	-	-	1,980

There have been no transfers between the levels of the fair value hierarchy during the financial year.

(a) Valuation techniques

The fair value of the listed securities traded in active markets is based on closing bid prices at the end of the reporting period. These investments are included in Level 1.

The fair value of any assets that are not traded in an active market are determined using certain valuation techniques. The valuation techniques maximise the use of observable market data where it is available, or independent valuation and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2. If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

(b) Fair values of other financial assets and liabilities

		2024	2023
	Note	\$	\$
Cash and cash equivalents	7	6,714,999	2,640,955
Receivables	10	585,252	140,922

Payables	13	(883,074)	(12,793,853)
		6,417,177	(10,011,976)

Due to their short-term nature, the carrying amounts of cash, current receivables and current payables is assumed to approximate their fair value.

	<u>43,955,117</u>	<u>43,789,520</u>

(a) Share-based payments reserve

The Share-based payments reserve recognises the consideration (net of expenses) received by the Company on the issue of options. In relation to options issued to Directors and personnel for nil consideration, the fair value of these options (refer Note 17) are recognised in the Share-based payments reserve.

(b) Profits reserve

An increase in the Profits reserve will arise when the Company or its subsidiaries generates a net profit (after tax) for a relevant financial period (i.e. half year or full year) which the Board determines to credit to the company's Profits reserve. Dividends may be paid out of (and debited from) a company's Profits reserve, from time to time.

(c) Foreign currency translation reserve

Exchange differences arising on translation of the foreign controlled entities are recognised in the Foreign currency translation reserve as described in the accounting policy note below and accumulates in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed of.

24. CONTINGENCIES

(a) Directors' Deeds

The Company has entered into Access, Indemnity and Insurance Deeds with the Directors which, inter alia, indemnify them against liability incurred in discharging their duties as officers. As at the reporting date, no claims have been made under any such indemnities and, accordingly, it is not possible to quantify the potential financial obligation of the Consolidated Entity under these indemnities.

(b) Deferred Payments from Settlement Agreement Relating to Apurimac Ferrum SAC

Pursuant to a settlement agreement dated 30 December 2012 whereby the Consolidated Entity acquired the (50%) balance of equity interest in Apurimac Ferrum SAC (**AF**) (the holder of the Apurimac Project) from D&C Pesca SAC, the Consolidated Entity has a series of deferred payment obligations as outlined below.

The Consolidated Entity has payment obligations if certain milestones are achieved as follows:

- (i) **Resource Milestone Payment:** US\$2 million on the delineation of at least 500 Mt of JORC Mineral Resources at an average grade of at least 55% Fe with at least 275 Mt of contained iron having an average grade of at least 52.5% Fe, on the Apurimac Project mineral concessions.
- (ii) **Approvals Milestone Payment:** Up to US\$3 million on AF receiving all formal government environmental and community approvals for the construction and operation of an iron ore mine and required infrastructure with a design capacity of at least 10Mtpa of iron ore product, relating to the Apurimac Project mineral concessions.
- (iii) **Construction Milestone Payment:** Up to US\$5 million on formal approval of the AF Board to commence construction of an iron ore project or the commencement of bulk earthworks for an iron ore mine or processing plant, in either case with a design capacity of at least 10Mtpa of iron ore product, relating to the Apurimac Project mineral concessions.

The Consolidated Entity has royalty payment obligations as follows:

- (i) 1.5% of the net profits from sales of iron ore mined and iron ore products produced from the Apurimac Project mineral concessions.
- (ii) 2% of the proceeds of sales of other metals (on a net smelter return basis) mined from the Apurimac Project mineral concessions.

Due to the inherent uncertainty surrounding the achievement and timing of the above milestones/royalty triggers, the Consolidated Entity regards these future payment obligations as contingencies.

For further background details, refer also to SRK ASX Announcement dated 31 December 2012: Strike Moves to 100% Ownership of AF.

(c) Legal Disputes Over Peru Mineral Concessions

The Consolidated Entity has successfully defended against a number of legal actions and claims made by several Peruvian parties (that have had a contractual relationship with AF) relating to the Consolidated Entity's mineral concessions in Peru. Whilst there still remain some outstanding claims and appeals, the Consolidated Entity believes that they are without merit and will all be eventually dismissed, consistent with previous decisions by the relevant Peruvian authorities.

For further background details, refer also to SRK ASX Announcement dated 1 May 2014: Strike Wins Millenium Arbitration Case in Peru.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2024

25. EVENTS OCCURRING AFTER THE REPORTING PERIOD

- (a) On 11 July 2024, the Company received \$100,000 deferred consideration from the sale of Paulsens East (which completed on 8 March 2024). The Company has agreed to a temporary suspension of payment of the (\$400,000) balance of the deferred consideration pending finalisation and reconciliation of a pre-completion supplier contractual matter. The \$500,000 deferred consideration was recognised as a Receivable asset as at balance date.

No other matter or circumstance has arisen since the end of the financial year that significantly affected, or may significantly affect, the operations of the Consolidated Entity, the results of those operations, or the state of affairs of the Consolidated Entity in future financial periods.

Notes:

- (1) SRK disposed of Strike Iron Ore Holdings Pty Ltd and Paulsens East Iron Ore Pty Ltd (which owns the Paulsens East Iron Ore Project in Western Australia) on 8 March 2024.
- (2) The Consolidated Entity Disclosure Statement (CEDS) has been prepared in accordance with subsection 295(3A)(a) of the *Corporations Act 2001* (Cth) and includes information for each entity that was part of the Consolidated Entity as at the end of the financial year in accordance with AASB 10 *Consolidated Financial Statements*.
- (3) The percentage of share capital disclosed for bodies corporate included in the CEDS represents the economic interest consolidated in the consolidated financial statements.
- (4) The Company has formed a tax-consolidated group (with effect on 1 July 2019) under Australian taxation law, with SRK as the head entity and the wholly-owned Australian subsidiaries of SRK as members.
- (5) Section 295 (3A)(vi) of the *Corporation Act 2001* defines tax residency as having the meaning in the *Income Tax Assessment Act 1997* (Cth) (ITAA 1997). Foreign incorporated companies can still be considered a tax resident of Australia if their central management and control is in Australia. An entity can be both, an Australian tax resident under the ITAA 1997, and a tax resident in another foreign jurisdiction under the tax law applicable in that jurisdiction.
- (6) The determination of tax residency involves judgement as there are different interpretations that could be adopted, and which could give rise to a different conclusion on residency. In determining tax residency, the Consolidated Entity has applied the following interpretations:
 - (a) The Consolidated Entity has applied current legislation and judicial precedent, including having regard to the Tax Commissioner's public guidance in Tax Ruling TR 2018/5 and the advice of independent Australian tax advisers; and
 - (b) Where necessary, the Consolidated Entity has used independent tax advisers in foreign jurisdictions to assist in its determination of tax residency to ensure applicable foreign tax legislation has been complied with.
- (7) Where the entity is not an Australian tax resident but is a foreign tax resident based on the Australian domestic law definition, then each foreign country in which the entity is a tax resident (as determined under the law of foreign jurisdictions) must be disclosed in the CEDS. However, if the entity is an Australian tax resident, this requirement does not apply and no further information needs to be provided about other tax residencies of the entity.

DIRECTORS' DECLARATION

The Directors of the Company declare that:

- (1) The financial statements, comprising the Consolidated Statement of Profit or Loss and Other Comprehensive Income, Consolidated Statement of Financial Position, Consolidated Statement of Cash Flows, Consolidated Statement of Changes in Equity, and accompanying notes as set out on pages 29 to 48 are in accordance with the *Corporations Act 2001 (Cth)* and:
 - (a) comply with Australian Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting; and
 - (b) give a true and fair view of the Consolidated Entity's financial position as at 30 June 2024 and of their performance for the year ended on that date;
- (2) The Company has included in the notes to the Financial Statements an explicit and unreserved statement of compliance with the International Financial Reporting Standards;
- (3) In the Directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable;
- (4) The Directors have been given the declarations required by section 295A of the *Corporations Act 2001 (Cth)* by the Executive Chairman (the person who, in the opinion of the Directors, performs the Chief Executive Officer function) and Company Secretary (the person who, in the opinion of the Directors, performs the Chief Financial Officer function); and
- (5) In the Directors' opinion, the Consolidated Entity Disclosure Statement on page 49 is true and correct.

This declaration is made in accordance with a resolution of the Directors made pursuant to section 295(5) of the *Corporations Act 2001 (Cth)*.

**STRIKE RESOURCES LIMITED
INDEPENDENT AUDITOR'S REPORT**

To the members of Strike Resources Limited

Opinion

We have audited the financial report of Strike Resources Limited (“the Company”) and its controlled entities (“the Group”), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the Directors’ Declaration.

In our opinion, the financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Group’s financial position as at 30 June 2024 and of its performance for the year ended on that date; and
- b) Complying with Australian Accounting Standards and *Corporations Regulations 2001*

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Report* section of our report.

We are independent of the Group in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board’s *APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (“the Code”) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Group, would be in the same terms if given to the directors as at the time of this auditor’s report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our Audit Addressed the Key Audit Matter
<p>Divestment of Mining Project</p> <p>During the year, the Group disposed of its mining project and recorded a gain on disposal of \$5,077,850.</p> <p>The recognition of the gain on disposal of the mining project was considered a key audit matter due to the following:</p> <ul style="list-style-type: none"> • The recorded gain and associated consideration is considered a material transaction to the Group; and • Accounting for these types of transactions can be complex. 	<p>Our procedures in reviewing the transaction included but were not limited to the following:</p> <ul style="list-style-type: none"> • Reviewed the share and asset sale agreement to understand the key terms and structure of the consideration paid; and • Reconciled management's calculations of the gain on disposal of the subsidiary recognised in the financial report; • Reviewed the accounting treatment of the transaction; and • Assessed the adequacy of the disclosures included in the financial report. <p>Our procedures did not result in any significant findings surrounding the accounting for the transaction.</p>

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2024 but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the director determine is necessary to enable the preparation of:

- i. the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii. the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the director either intends to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

STRIKE RESOURCES LIMITED

INDEPENDENT AUDITOR'S REPORT (continued)

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/auditors_responsibilities/ar1.pdf. This description forms part of our auditor's report.

Report on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2024. The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion the Remuneration Report of Strike Resources Limited, for the year ended 30 June 2024, complies with section 300A of the *Corporations Act 2001*.

Refer Strike's ASX Announcement dated 20 January 2015: *Apurimac Mineral Resources Updated to JORC 2012 Standard*.

* The Opaban 3 Mineral Resource has been diminished by production and sales of 50,095 tonnes of lump iron ore grading 65.78% Fe, 2.42% SiO₂, 0.72% Al₂O₃, 0.057% P and 0.09% S.

Compliance Notes

- The Mineral Resources estimate in respect of the Apurimac Iron Ore Project (above) have not changed since reported in last year's (2023) Annual Report. The Company notes that production at the Opaban 3 concession was undertaken during calendar 2021 with two shipments totalling ~50,000 tonne shipment of Lump direct-shipping iron ore (**DSO**) completed in August and October 2021.
- The Mineral Resources estimates in this Annual Mineral Resources Statement are based on, and fairly represents, information and supporting documentation prepared by a Competent Person (recognised under the JORC Code (2012 Edition)).
- The Annual Mineral Resources Statement as a whole (in respect of the Apurimac Iron Ore Project) has been approved by the Competent Persons named in the JORC Code Competent Persons' Statements section of this Annual Report (at page 57) where further information concerning their qualifications and professional memberships are also disclosed.
- Due to the nature, stage and size of the Company's existing operations, Strike believes there would be no efficiencies gained by establishing a separate Mineral Reserves/Resources Committee responsible for reviewing and monitoring the Company's processes for estimating Mineral Reserves/Resources. The Board as a whole has responsibility in this regard (with assistance from external advisers as appropriate) including ensuring that appropriate internal controls are applied to such calculations.
- The Company ensures that any Mineral Reserve/Resource estimations are prepared by Competent Persons and where appropriate, reviewed independently and verified (including estimation methodology, sampling, analytical and test data).
- The Company will report any future Mineral Reserves/Resources estimates in accordance with the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (the **JORC Code (2012 Edition)**), or any updated version of the same that may be applicable at the time of the relevant Mineral Reserve/Resource estimation.

JORC CODE COMPETENT PERSONS' COMPLIANCE STATEMENTS

The information in this document that relates to **Mineral Resources**¹⁷ is based on information compiled by Mr Ken Hellsten, B.Sc. (Geology), who is a Fellow of AusIMM. Mr Hellsten was a principal consultant to Strike Resources Limited and was also formerly the Managing Director of Strike Resources Limited (between 24 March 2010 and 19 January 2013). Mr Hellsten has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the JORC Code. Mr Hellsten consents to the inclusion in this document of the matters based on his information in the form and context in which it appears.

FORWARD LOOKING STATEMENTS

This document contains “forward-looking statements” and “forward-looking information”, including statements and forecasts which include without limitation, expectations regarding future performance, costs, production levels or rates, mineral reserves and resources, the financial position of the Company, industry growth and other trend projections. Often, but not always, forward-looking information can be identified by the use of words such as “plans”, “expects”, “is expected”, “is expecting”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates”, or “believes”, or variations (including negative variations) of such words and phrases, or state that certain actions, events or results “may”, “could”, “would”, “might”, or “will” be taken, occur or be achieved. Such information is based on assumptions and judgements of management regarding future events and results. The purpose of forward-looking information is to provide the audience with information about management’s expectations and plans. Readers are cautioned that forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company and/or its subsidiaries to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Such factors include, among others, changes in market conditions, future prices of minerals/commodities, the actual results of current production, development and/or exploration activities, changes in project parameters as plans continue to be refined, variations in grade or recovery rates, plant and/or equipment failure and the possibility of cost overruns.

Forward-looking information and statements are based on the reasonable assumptions, estimates, analysis and opinions of management made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date such statements are made, but which may prove to be incorrect. The Company believes that the assumptions and expectations reflected in such forward-looking statements and information are reasonable. Readers are cautioned that the foregoing list is not exhaustive of all factors and assumptions which may have been used. The Company does not undertake to update any forward-looking information or statements, except in accordance with applicable securities laws.
